an Open Access Journal by MDPI

## Editor-in-Chief

Prof. Dr. Patrick Butaye

## Message from the Editor-in-Chief

*Veterinary Sciences* (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

## Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Thorough Peer-Review**
-  **Rapid Publication** manuscripts are peer-reviewed and a first decision provided to authors approximately 25.3 days after submission; acceptance to publication is undertaken in 5.1 days (median values for papers published in this journal in the second half of 2018)
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
-  **Coverage by Leading Indexing Services** PubMed (NLM), Scopus (Elsevier)
-  **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI Institutional Open Access Program (IOAP)

## Aims and Scope

*Veterinary Sciences* publishes original research articles, reviews, communications, and short notes that are relevant to any field of veterinary sciences, including prevention, diagnosis and treatment of disease, disorders and injuries in animals.

*Veterinary Sciences* deals with almost all topics related to animal health and veterinary medicine. Research fields of interest include but are not limited to:

|                |                   |
|----------------|-------------------|
| anesthesiology | molecular biology |
| anatomy        | mycology          |
| bacteriology   | neurobiology      |
| biochemistry   | oncology          |
| cardiology     | ophthalmology     |
| dentistry      | parasitology      |
| dermatology    | pathology         |
| embryology     | pharmacology      |
| endocrinology  | physiology        |
| epidemiology   | radiology         |
| genetics       | surgery           |
| histology      | theriogenology    |
| immunology     | toxicology        |
| microbiology   | virology          |
